Subject: Kalamazoo River Area 3 Field Investigation Status for July 16, 2013
Date: Wednesday, July 17, 2013 1:38:33 PM

Tuesday, July 16, 2013

On site today: AMEC, CDM and CH2M HILL.

Adherence to the Sampling Plan:

- No deviations from the plan were observed.

Work Completed Today:

- AMEC completed 2 DUs today: DU-04 (54-022-008-00), and DU-03 (54-022-041-11). One sample of the two (replicates) was done at DU-03, the second replicate sample at this location will probably be done tomorrow (Wednesday).
- DU-04 was a particularly difficult property in that it was heavily vegetated with trees and plants and had a lot of poison ivy, especially closer to the river. Grey material was observed in the 6-12 inch interval near the river.

Other Information:

The following sample locations have been staked:

- DU-01-54-008-00
- DU-02-54-039-00 (B)
- DU-03-54-041-11
- DU-04-54-008-00 (B)
- DU-05-54-009-00
- DU-06-54-013-00 (B)
- DU-07-54-012-00 (B)
- DU-08-54-023-00 (B)
- DU-09-54-007-00

(B) indicates where bank samples will be collected.

- A bank sample will also be collected at 54-022-044-00.

H&S Concerns: Heat and poison ivy.
